## **Operational Excellence**

Differentiating link of your supply chain

State of the art infrastructure

50+ Hubs centers across India

Network of 850+ branches

Reach in 22 states & 6 UTs across the nation

Robust infra to handle gigantic volumes of

90 million article cargo annually

2.5 million GCs per annum

0.5 million trips per annum in long haul & Feeder vehicles

Total space available for ground operations – 1.6 million Sq. Ft.

# **Operational Excellence**

#### Control tower surveillance

Uses of MHE (Material handling equipment), pallets for Godown storage and material movement.

# Agile and responsive

Big is good but at times, Smaller is better. The current times proved that being agile and lean is very important.

Where most companies will go for large Transshipments, we have analyzed the benefits, of smaller TCs.

It doesn't collapse the system and easy to manage for various reasons.

Have already started 2 such TCs at Kathwada & Changodar., and several others are in pipeline.

Ceat 2010 Award for Excellence in Personnel Management & Transport Personality of the Year.

Ceat 2011 Award for Excellence in Personnel Management & Environment Conservation.

The CFBP-Jamnalal Bajaj Award for Fair Business Practices at the hands of Mr. Nandan Nilekani, Chief UIDAI.

Apollo-CV Award for Best Technology Adopter of Year – 2012.

Ceat-2012 Award for Excellence in Personnel Management for the 3rd year in row.

Ceat 2012 Award for Excellence in Customer Experience

V-Trans is honored to receive the prestigious CII Scale 2018 Awards for best company in "ROAD TRANSPORT".

V-Trans is honored to receive the prestigious CII Scale 2018 Awards for best company in "TRAINING & SKILL DEVELOPMENT".

"Best Road Transport Company in India" for 2018, at 8th Edition – "ICC - Supply Chain Logistics Summit & Excellence Award" presented by . Ms. Leena Nandan – (Additional Secretary - Ministry of Road Transport and Highways).

V Trans India Ltd has been awarded as Iconic Brand 2020 by the Economic Times

The ESG has become a base to differentiate between the companies that will be preferred by all stakeholders in long run and probably also the companies that will grow consistently. For V-Trans, before these come, the sense of responsibility that we have towards the planet and society. As we demonstrate strong work towards ESG excellence it is a feeling of delight and pride when forums such as The Economic Times, recognizes and praises our work. Proud to share that ET has bestowed us as an ET Sustainable organization- 2022

#### Renewable energy solar panel:

With a view to conserve our natural resources, we have set up solar panels at most of our hubs and transshipment centers and at our Corporate office.

These solar panels lights up the facilities of office and the residential quarters of our employees.

At Corporate office above 40% of required energy is produced through solar panels.

Actual image

#### Rain water harvesting:

- To continue conserving the natural resources we have done Rain harvesting at many places in our company.
- Rainwater harvesting technique has been introduced at our Corporate office, Vapi Super Hub, Aslali, Gandhidham and Nelamangala transshipment premises.

Reference image

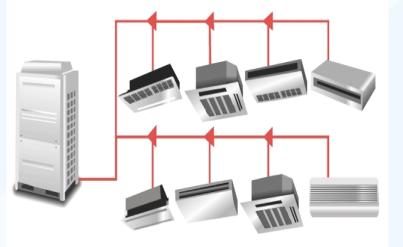

#### E-Waste Management:

- With 100% of our branches computerized, E-Waste is becoming an environmental hazard for us like every other tech savvy company.
- We joined hands with M/s. Frontline Recycling Ltd., a Mumbai based e-waste recycling agency to manage our e-waste disposal. On notification from us, they arrange to pick up our e-waste from site – anywhere in India, and have it re-cycled. They have also issued us a certificate for the same.
- Also our basic office stationery is re-cycled.

#### Saving electricity, Reducing plastic:

- Replaced plastic bottles across India with glass / metal bottles
- Stopped using the small mineral water bottles for meetings and guests
- Give away bags are always of recycled material
- Lighting across infra is energy efficient
- Corporate office VRV system of AC (most efficient way of using)

# Leed Certified Corporate Office

- Our corporate office at Mumbai, is a green building & LEED certified, that one gets based on stringent criteria.
  Primary focus point for the same are as under –
  - Energy use, including energy efficient lighting and HVAC systems
  - Location of the building and sustainability of the immediate environment
  - Indoor air quality and use of daylight to reduce lighting costs
    - Water conservation and reduced-use mechanisms

Use of sustainable materials during construction

#### Protecting the environment:

- We use every opportunity to do our bit for environment, even in our annual employee meets we distributed Seed balls as a gift to all over 2000 boxes of 10 seed balls in each.
- This seed balls has approx. 6 months life and can be just dropped in soil in monsoon season and the plants will grow automatically.
- Various sapling planting drives –
- Drive at Vapi in association with the Vapi Industrial Association, planted around 200 saplings
- At Golden chokdi transshipment, Baroda we have planted 12 trees.
- Gandhidham we have planted around 150 saplings of neem suitable for surviving in the local environmental conditions.

## Tree Plantation & Rural Livelihood:

When we do some thing for the nature and if it can simultaneously help the poor farmer's livelihood, this could be the best thing.

We have tied up with an NGO "SankalpTaru" and planted 3500 fruit bearing trees in trough affected areas for helping the farmers and nature both.

## Healthy Fleet, using clean, undiluted fuel:

- Restricting fuel emissions from all our vehicles.
- No overloading of vehicles to increase the chances of fuel emissions, accidents and damage to roads
- We have a young fleet of fuel efficient.
- Fixed maintenance contracts, regular PUC & tyre checks to keep our vehicles in top roadworthy condition and from harmful emissions
- Fixed accounts with reliable and trusted re-filling petrol pumps with petro-card facility to discourage our drivers from using diluted fuel from unscrupulous dealers.

## Vehicles for reducing carbon footprints:

Exploring the possible alternate of less carbon footprints, we have deployed the **CNG vehicles** for city distribution in many states.

As a part of the group's mission of green logistics & sustainability strategy, V-Xpress began a trail of **Electrical Vehicles** for distribution.

# Ease of operation for manual labors:

- Use of advance MHE's
- Scientific design of TCs for reduced efforts of labourers
- State of the art infrastructure for smooth material flow.

# Safety Week

- Human beings follow the habits and to create awareness about good habits is possible with consistent efforts.
- We keep organizing initiatives such as Safety week to help our people build safety as a top habit.
- We have seen very enthusiastic participation of team including – drivers, loading-unloading staff, vendors & colleagues.

## Driver & Labor training:

- We are very focused on having our drivers and labor staff well trained.
- Technical trainings, health check up camps and sessions for mantel well-being with BramhaKumaris, are frequently organized for betterment of our team.
- We even had launched Dignity to driver program to inculcate in team for being respectful to the drivers and consider them as part of V Trans family.

# Going paperless:

- Our group always been a user, promoter of technology, we had 100% computerization of branches, much before the industry in 1990's.
- Going in the direction and in response to the current contact less business processes we are aggressively promoting the eversions of Bill, PoD, and Invoices.
- We have facilitated our walk-ins clients with digital payments also so that they don't exchange the currency notes.

#### WE KEEP YOU SAFE WITHOUT PHYSICAL TOUCH

With Digital payment gateway, we ensure contactless payments and safety of our clients and our staff. To make lives easier and safer, choose from a range of online payment option.
